These Terms and Conditions are governed by and construed following the laws of Slovakia. You irrevocably submit to the exclusive jurisdiction of the courts in that State or location.

14 Payment gateway

Mockupie is using the PayPal payment gateway for purchases of materials by customers and also to pay earnings to material authors.

Mockupie is not responsible for the proper functioning of PayPal (As of 3rd Party) money forwarding because Mockupie as an intermediary does not influence the PayPal author (seller) account.

15 Relationship with author

An author is a legal entity of a self-employed person registered in the European Union with a valid Tax ID who creates an account on Mockupie, uploads products to Mockupie, and starts to sell these products to Mockupie customers. At the moment you can't sell products on Mockupie if you don't have a legal entity or if you are not self-employed registered in European Union and don't have a valid Tax ID.

15.1 Available countries

At the moment, we only provide services to authors from the countries of the European Union. This means you cannot upload and sell any product on Mockupie if your country of residence is not a member of the European Union. We are working hard to make Mockupie available worldwide. You can subscribe to our newsletter if your country of residence is not a member of the European Union and we will let you know when Mockupie is available in your country.

15.2 License

When you “sell” a product, you’re making your product available to buyers and downloaders to use that product under certain conditions. You’re not selling the product itself, not transferring intellectual property. You are selling a license to buyer or downloader to use that product under the relevant [license options](#) set by Mockupie.

15.3 The trade

At the moment of product purchase by a customer, you as an author sells the [license](#) to your product to Mockupie for the price defined in your product and then Mockupie add [fees](#) to the product price and sells the [license](#) to the customer.

15.4 Content approval

15.4.1 Uploading new product

We will receive a notification after you upload a new product. The product will then go through a review process where we might suggest some text changes, request higher quality files, approve or deny them. In any case, you will receive an email notification stating whether your product has been approved or not, and what you need to do to make your product approved.

15.4.2 Modifying existing product

We will receive a notification after you modify an existing product. The product modification will then go through a review process where we might suggest some text changes, request higher quality files, or approve them right away. In any case, you will receive an email notification stating whether your modification has been approved or not, and what you need to do to make your product approved. While your product is being verified, the latest verified version of your product will still be available to our customers, even if we deny your modification.

15.4.3 Conditions to make the product available to customers

- the item is of acceptable quality and fits the purpose for which it is sold
- the item matches the description given by the author on the item preview page, as well as any item preview
- the author will honor any express warranties given to you that are not contained in these terms
- author has the rights necessary to [license](#) an uploaded product on the terms of the applicable [license](#)
- your use of that item following the terms of the applicable [license](#) does not infringe the intellectual property rights of someone else
- the item and its description are not false, inaccurate, misleading, fraudulent, unlawful, defamatory, and does not contain adult or harmful content
- the item and its description does not violate any applicable law or regulation (including those governing export control, consumer protection, unfair competition, criminal law, pornography, anti-discrimination, trade practices, or fair trading)
- the item does not contain viruses or other computer codes, files, or programs that are designed to limit, destroy, abuse, or misuse the functionality of other computer software or hardware
- the author will process customers data following applicable privacy law and data protection regulations
- product needs to be approved
- a valid PayPal email address needs to be set in profile settings
- a valid Business ID, Tax ID, and invoicing details to be set in profile settings
- a valid VAT registration number if you have a VAT registration to be set in profile settings

15.5 Content removal

We can look at or remove any of your content for any reason at our discretion. Reasons might include quality assurance if we receive a valid copyright take-down notice, or General IPR Notice if we think that the content is unauthorized, misleading, incorrect, offensive, or in breach of anyone else's rights, or if we think that your use of the Mockupie and any content might result in liability to us or anyone else.

15.6 Product prices

15.6.1 What the final price of the product consist of

The total price for a product on Mockupie is made up of:

- Item price: The main price set by the author
- Mockupie Fee: This fee is not part of the product price set by you and is paid by the customer. It's the main and only commission for us as the Mockupie for selling author products. The Mockupie commission fee is 35% + 0.50 EUR. This fee contains all payment gateway fees for the purchase and also for the payout transaction (when we send your earnings to your PayPal).
- Tax/VAT: Some transactions may be subject to tax that may be added to the price depending on the country of residence of the customer and applicable laws. Tax/VAT is paid by the Customer.

15.6.2 Example of price calculation

Author set product price 10 EUR. Mockupie adds its fee to this price. Then Tax/VAT is calculated for the specific customer (for example 20% based on country of residence). Final price will be $(10 + 3.50 + 0.50) + 20\% = 16.80$ eur. This price will be paid by customer who buy author product.

15.7 Earnings payout

The author is responsible for setting a correct PayPal email address in the settings. A correct email address is necessary to make payouts to the author's PayPal account. Mockupie does not take any responsibility for the potential loss of money as a result of an invalid email address. However, we will do what we can to help you recover money lost in this way in case it happens.

Earnings and payouts are being processed after each month. A payout will include your earnings from the previous month(s) if any. For example, if someone purchased your product on May 3rd, we will send you the earnings for this transaction by the end of June. The minimum payout amount is 30€. If you have fewer earnings than this amount, the earnings in the next month will add up and you will receive your earnings after the month the total earnings amount surpasses the minimum payout amount.

16 EU VAT

Mockupie is a legal entity registered in Slovakia, a member country of the European Union. Mockupie has an EU VAT registration.

Mockupie is responsible for determining, collecting, and remitting EU VAT for all Mockupie purchases from EU customers. The EU VAT obligation is carried by Mockupie, you have no further responsibility to deal with EU VAT on sales made through Mockupie. Mockupie will report the VAT collection and remittance to the relevant EU member state authorities. As of January 1st, 2015, the seller's location does not make a difference, Mockupie is accounting for VAT on all sales into the EU based on the customers' country of residence.

EU VAT collected from customers will be remitted by Mockupie to the EU via our EU VAT MOSS in Slovakia in our name or based on current law. EU VAT is not reported in the author's name, and we require the author's EU VAT registration number or details to be correctly set in account settings if the author has an EU VAT registration.

16.1 Invoicing

An invoice issued in your name, using your invoicing details, will be created and sent to you on the first day of each month. The invoice will include your earnings from a previous month if any. If you didn't have any earnings in the previous month, we won't create an invoice. This process is fully automated. Should you have any questions, please send us an email to info@mockupie.com

You don't need to issue an invoice if you want your earnings to be paid out to you. Issued invoices won't be accepted.

17 Taxes

Any earnings that you receive from Mockupie are your responsibility to manage appropriately within your local country. We cannot provide advice on how you should proceed to pay taxes on your author's earnings as tax laws vary greatly from country to country.

We encourage you to seek out professional advice on tax-law and filing taxes. While the specifics of your country's tax laws might be different, there's a good chance that your government still wants you to declare your income.

17.1 Deletion of account

Mockupie doesn't have an option to directly delete an account because we might need your account information, product, and transaction history for legal, accounting, and earning payout purposes. If you wish to delist your products and delete your account, you can send us an email to info@mockupie.com and we will deactivate your account, delist your products, anonymize your personal information if possible and pay you any outstanding earnings on your account in the next payout period.
